## Cindy Shaoul - Reading in Style

Exploring the purity of the feminine form and the drama of French haute couture, artist Cindy Shaoul creates a dialogue between the figurative and the abstract. Her spirited compositions are both dramatic and invigorating, capturing the fleeting moment of innocence swept up in bold color and seemingly controlled movement. She demonstrates a whimsical expression of femininity and formality; a stunning display of understated grandeur. It is as if the shape's only purpose is to hold the magnificent colors.

For this purpose, many people are now utilizing Viteyes® Tear Support, an eye supplement which is formulated with key eye nutrients to counter this problem from the inside out. Viteyes® Tear Support supplement helps to provide eye comfort and fight against occasional dry eye relating to wearing face masks.

## Vincenzo Skincare CAVIAR & DIAMOND

VINCENZO Skincare CAVIAR & DIAMOND products are designed to perform in a variety of situations.

The ability to help acne, fine lines, wrinkles and feathering, plus certain types of sun damage with full capability on various skin combinations is unique to the company's products. Use of the highest concentration of ingredients available without a prescription is unique to VINCENZO Skin Care product lines. This is significant because the higher the concentration, the more effective the result. In addition, active raw materials are encapsulated in patent holding technology which allows an active raw material to become transdermal rather than topical; thus, delivering the raw material into the lowest level of the epidermis. This feature, which has undergone significant laboratory testing – passing all FDA guidelines – provides for significantly increased speed and effectiveness. Internal research indicates VINCENZO's product lines have a superior performance to most products available in the marketplace today.

## The Sisters Are Alright: Changing the Broken Narrative of Black Women in America by Tamara Winfrey-Harris

A quick holiday gift for the aunts, sisters, girlfriends, sorority sisters, bookworms, and activists in your life. A slew of harmful stereotypes continues to follow Black women. The second edition of this bestseller debunks vicious misconceptions rooted in long-standing racism and shows that Black women are still alright.

When African women arrived on American shores, the three-headed hydra—servile Mammy, angry Sapphire, and lascivious Jezebel—followed close behind. These stereotypes persist to this day through newspaper headlines, Sunday sermons, social media memes, cable punditry, government policies, big screen portrayals, and hit song lyrics. Author Tamara Winfrey Harris reveals that while emancipation may have happened more than 150 years ago, America still won't let a sister be free from this coven of caricatures.

The latest edition of this bestseller features new interviews with diverse Black women about marriage, motherhood, health, sexuality, beauty, and more. Alongside these authentic experiences and fresh voices, Winfrey Harris explores the evolution of stereotypes of Black women, with new real-life examples, such as the rise of blackfishing and digital blackface (which help white women rise to fame) and the media's continued fascination with Black women's sexuality (as with Cardi B or Megan Thee Stallion).

The second edition also includes a new chapter on Black women and power that explores how persistent stereotypes challenge Black women's recent leadership and achievements in activism, community organizing, and politics. The chapter includes interviews with activists and civic leaders and interrogates media coverage and perceptions of Stacey Abrams, Vice President Kamala Harris, and others.

Winfrey Harris exposes anti-Black woman propaganda and shows how real Black women are pushing back against racist, distorted cartoon versions of themselves. She counters warped prejudices with the straight-up truth about being a Black woman in America.
